

Email Policy

Rationale

Recognising our moral and legal obligations as a Catholic school community to provide a safe learning environment for all students, Cardijn College has adopted the following Policy to ensure the appropriate use of emails as a communication medium. Staff members, students and authorised visitors (collectively known as 'Users') are provided with a College email account to be used primarily for College purposes. The use of the College email facilities becomes a formal corporate record of the College and is governed by relevant legislation, by the College's stated values and standards of professional conduct, by the CESA Code of Conduct, the College's ICT Acceptable Use Policy and by the protocols that apply to all forms of written communication.

Policy Statement

All users are to use the school's ICT primarily for educational or business purposes and only in a way that enhances student and staff learning, contributing to the betterment and well-being of the community. The technology is to be used in harmony with the Catholic ethos of the College and uphold its mission and values.

Purpose

Access to the College's email facilities is provided for the purpose of sending and receiving emails related to the business of the College or to the study program of the students.

Regular Accessing

It is important for members of staff and students to access and read email messages sent to their Cardijn College email account on a timely basis.

Broadcast emails

The use of broadcast email to all students or all staff or both is to be kept to a minimum and will predominantly be for purposes of official college business.

The authorisation for broadcast email is:

- The Principal or Deputy Principal for a broadcast email to all students or all staff of the College.
- As an authorised delegate of the Principal, the extended leadership team is permitted to broadcast email to all members of staff or all students providing the email is related to their delegated areas.

Email communications to a group of staff by a member of staff that are clearly presented as the views of or information from that person and not as an official announcement of the College are considered to be Broadcast Emails.
